

# ACOUSTIX Pod

Portable Acoustic Office Booth:  
Wheelchair Access & Fire Safety Compliant

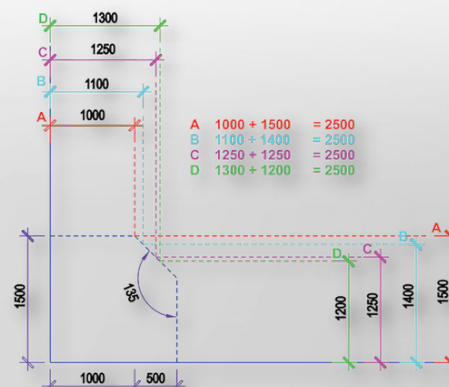

## Wheelchair Accessibility

Unlike imported booths, often illegal for multi-story buildings due to non-compliance with Disability Discrimination Act and Fire Regulations, Gregory's ACOUSTIX Pod stands out. Wheelchair accessible, featuring a soft-close door and user-friendly handles, it's engineered to exceed standards.

At Gregory, we recognize the significance of wheelchair accessibility in our acoustic pods. While our pods can be DDA compliant, it's crucial to consider their placement. Wheelchair accessibility encompasses not only the pod's interior but also its surroundings. Specific requirements, including turning radius, entry pathways, and ramp/step specifications, must be met to ensure entryways are accessible for wheelchairs.

## Fire Sprinkler Accessible Roofing

Revolutionizing workspaces, Gregory's Acoustix Pod is the pioneer in portable acoustic office booths designed exclusively for wheelchair access. It's not only innovative but also the sole booth compliant with building fire sprinkler requirements.

Prioritizing your employees' health and safety in the new COVID-19 era, the pod features a dual-fan circular airflow system that optimizes air exchange rates, ensuring a gentle flow within the booth. Elevate it further with the optional HEPA Filter
