

Inca

Ergonomic Task Chair

Favoured and specified by occupational therapists and ergonomists throughout Australia, the Gregory Inca stands as a testament to its unparalleled quality, functionality, and design. It caters to your individual needs with a choice of a medium, high, or extra high backs. The seat is also customisable with small, medium, or large options, guaranteeing a perfect fit for every individual.

Gregory Inca

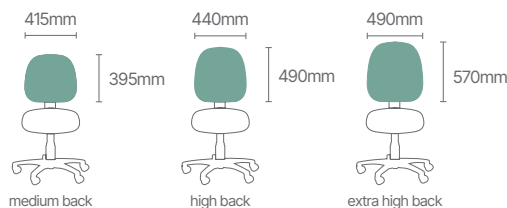

The Epitome of Ergonomic Design

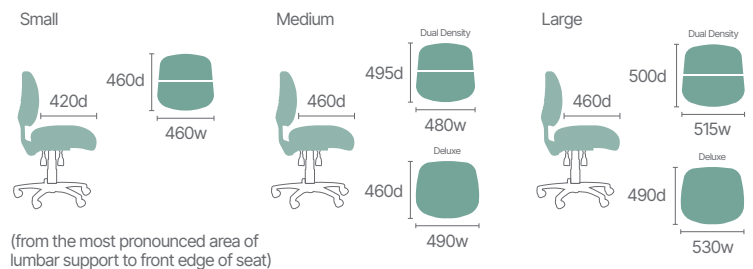

The Gregory Inca, designed and manufactured in Australia, offers meticulous engineering by a professional physiotherapist to promote optimal posture and reduce fatigue during prolonged sitting. At the heart of the Inca's success is Gregory's original award-winning Dual Density Posture Support technology which reduces the risk of back pain and other posture-related issues.

The Inca features a 3-lever mechanism for customisable seat height, tilt, and back angle, along with a robust moulded polypropylene outer back for consistent support and an anti-slip ratchet back height adjustment. Independently certified by AFRDI, the Inca passed the 142 Rated Load 160kg Multi Shift certification program, demonstrating its durability in any office environment.
