

Petite

Ergonomic Task Chair

Presenting the Gregory Petite, a revolutionary ergonomic seating solution thoughtfully designed and manufactured in Australia. Choose from either a medium or high back, and further tailor your choice with the Inca (round) or Boxta (square) back design. These options allow you to customise the Petite to your aesthetic preference and ergonomic needs.

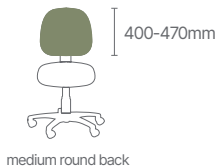

Gregory Petite Ergonomic Design with a Fresh and Compact Profile

Tailored for those seeking a smaller seat size without compromising on comfort or quality, the Gregory Petite blends ergonomic expertise with a fresh and compact profile. The chair boasts an extra small seat depth of 380mm from the lumbar support and an overall seat depth of 420mm. This unique design ensures maximum comfort while catering to individuals who prefer a more petite seating solution.

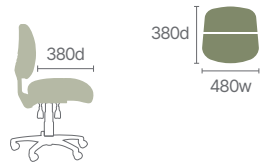

With a user-friendly 3-lever independent mechanism, the Petite allows easy adjustments for seat height, seat tilt, and back angle, providing a personalised seating experience that supports your posture throughout the workday. Crafted with a durable molded polypropylene back outer, the Petite includes an anti-slip ratchet for adjusting the back height, guaranteeing precise positioning to enhance your comfort.
