Sicura

Ergonomic Mesh Back Chair

Pictured with the optional patented Gregory Dual Density MkII Seat

Enhance your workspace with the Sicura Ergonomic Mesh Back Chair, a symbol of modern elegance, ergonomic excellence, and productivity. Designed to meet the needs of today's professionals, this chair is an investment in both your comfort and the aesthetics of your office environment.

Designed for Comfort, Built for Productivity

Pictured with the optional patented Gregory Dual Density MkII Seat

The Sicura chair features a breathable mesh backrest that promotes airflow, keeping you cool and comfortable throughout the working day. Its ergonomic design includes a contoured seat and height adjustable lumbar support, tailored to enhance your posture and reduce strain on your back. The sleek and modern aesthetic of the chair is enhanced by its clean lines and minimalist profile, making it a stylish addition to any office setting.

With a maximum weight capacity of 110 kg, the Sicura chair accommodates a wide range of users, providing reliable support and comfort. Its compact dimensions make it an ideal choice for any workspace, offering ample seating space without overwhelming your office.

Equipped with a robust 5-star base made of high-quality materials and smooth-rolling castors, the Sicura Ergonomic Mesh Back Chair offers stability and effortless mobility across various floor surfaces. The chair's rotating mechanism and adjustable seat height allow for personalised adjustments, ensuring you find the perfect seating position for your needs.

The chair's ergonomic features, including three lever independent mechanism, height adjustable back and height adjustable lumbar support, cater to individual preferences and ergonomic requirements, enhancing overall user comfort. Sicura has been designed for commercial use ensuring it meets rigorous standards for durability and safety.
